

Boundary Conditions for LAM EPS, 11 June 2010

- **Participants:** Representatives from the LAM EPS consortia, DWD, the Met Office, Meteo-France and SRNWP ET-EPS
- **The consortia presented their respective requirements for BCs for the running of LAM-EPS:**
 - COSMO LEPS
 - ALADIN/LACE
 - HIRLAM, GLAMEPS
- **ECMWF presented a scenario involving 2 additional EPS runs at 6 and 18 UTC with a configuration close to that of the operational EPS, at a cost similar to the current BC-project.**
- **Outcome: Agreement to investigate LAMEPS-BC as a new optional project or as an additional activity within the existing BC project.**
- **Actions:**
 - ECMWF to prepare a document for the September meeting of the BC-project TAC Subgroup, with 3 fully-costed options in response to the LAMEPS-BC requirements.
 - Experts representing the LAMEPS activities above, will be invited
